

that the day is near at hand when every-one employed at the various branches of industry and coming association, may be enrolled as a member, prepared to defend and promote the interests of the entire craft and to further the great cause for which we unite and federate—the cause of human justice.

Officers of the International Association of Machinists report that their strike has very largely succeeded in establishing the nine-hour rule in that trade. They claim the settlements reached have given 60,000 machinists a shorter day, 15,000 others are affected by contracts reached and 5,000 machinists will receive an average of 25 cents a day increase in wages.

For Larger Assemblies. The report notes a growing tendency to agreements to create a defense fund. It recommends changing the federation's constitution so as to admit of a larger assembly, and the levy by the executive council in the year of a portion of the assessment provided so that a fund may be at its disposal at any time in the interests of the affiliated organizations engaged in a protracted struggle which they could not singly support. It also recommends authorizing a committee to meet with the Western Federation of Miners looking to their affiliation. The report denounces the employment of young children and contends for greater organization among women workers.

Advocate Chinese Exclusion. Mr. Gompers says he has arranged an active campaign for the re-enactment of the Chinese exclusion act and expresses regret at a portion of the assessment provided so that a fund may be at its disposal at any time in the interests of the affiliated organizations engaged in a protracted struggle which they could not singly support. It also recommends authorizing a committee to meet with the Western Federation of Miners looking to their affiliation. The report denounces the employment of young children and contends for greater organization among women workers.

Treasurer Lennon's report showed an income of \$116,522, expenses \$118,702, total funds at hand \$3,814. Secretary Morrison's report shows the total number of strikes of all kinds reported aggregated 1,056, in which 165,503 members were benefited and 12,707 benefited. Their companies received \$543,002. At 8 p. m. the convention adjourned until 8 o'clock tomorrow morning. The committee on credentials met tonight and heard arguments on three contested seats. The protest of the United States against the seating of Gabriel Joseph of the United Labor League of Philadelphia, because the league recognized an independent hatters' union, was decided in Joseph's favor with a promise that the independent union be expelled from the league. The committee suggested such a settlement and both factions accepted it. No decision was announced in the other two contests.

INJURED IN FOOT BALL GAME. John Johnson of South Dakota University Has Bones Broken Again.

LEAD, S. D., Dec. 5.—(Special.)—Johnnie Johnson, foot ball player of the State university, had several bones in one of his hands broken during the Thanksgiving game between the Golden Star and the Olympic teams. A year ago that day he broke his collarbone and two years ago he broke two ribs in playing in games. Johnson has just returned from a visit to Vermillion, where he met Connie Collins, the famous sprinter who broke one of his limbs in a game early in the fall. Collins has a great many friends in the Black Hills who are glad that the fracture will not seriously injure him and that his record-making as a pacemaker will not be interfered with.

RAILROAD GRADERS FIND ONE. Fremont, Elkhorn & Missouri Valley's Construction Gang Encounters Rich Vein.

LEAD, S. D., Dec. 5.—(Special.)—The Fremont, Elkhorn & Missouri Valley Railway company's graders on the new road from Deadwood to this city have encountered a large vein of ore in one of the cuts, which will go in value about \$30 per ton. It was a blind vein, with no surface indications and it will probably open up into a paying mine. The ore taken out is being used for the railroad grade.

Government Suspend Building. CHEYENNE, Wyo., Dec. 5.—(Special.)—Work on the superstructure of Cheyenne's public building stopped today, pending the result of an investigation ordered by the Washington authorities into the alleged imperfection of the iron mountain sandstone which is being used. The contractors are alleged to have committed the error of impregnating with iron and is not fit for use in the building.

The stone contractors, Messrs. Keefe & Bradley of this city, say that all of the stone that has been brought in from the iron mountain quarries was taken from the surface and was not intended for use in the public building, but rather to make tests and for use in private buildings. The stone to be furnished the government building contractors will be taken out of the bottom of the quarry, and the rock is said to contain no iron. An inspector will arrive here in a few days and investigate the matter. It is believed that work will be resumed inside of a week.

South Dakota Incorporations. FIERRE, S. D., Dec. 5.—(Special.)—These articles of incorporation have been filed: Hawkins Hardware company, at Vermillion, with a capital of \$25,000; incorporators, Elbert D. Hawkins, Myron D. Thompson and Marie L. Hawkins.

National Cigar and Tobacco company, at Pierre, with a capital of \$1,000,000; incorporators, Walter H. Calkins, Henry T. Crapo, William E. Austin, L. L. Stephens and F. A. Stephens.

Lincoln Copper Development company, at Pierre, with a capital of \$2,000,000; incorporators, Charles E. Fuller, Charles L. Pierce, W. E. von Johansen, L. L. Stephens and F. A. Stephens.

Efforts to Die Prove Futile. CHEYENNE, Wyo., Dec. 5.—(Special.)—E. Hanson, barber, who was arrested several months ago, charged with the theft of a bicycle and who made several attempts to commit suicide while confined in the county jail, has been found guilty of petit larceny. Hanson has recovered from the effects of his glass and soap-eating stunts and the wound in his thumb, self-inflicted for the purpose of bleeding to death, has healed.

N. H. Andrus, jeweler, charged with contempt of court, appeared before Judge Scott this morning and proved that he did not make the remarks attributed to him by an officer of the court and Judge Scott immediately dismissed the matter.

Indiana Slow to Enroll. DENISON, Tex., Dec. 5.—The Cherokee enrolling party of the Dawes commission has returned to Muskogee after a stay of only about 20 fullbloods to the rolls and there is doubt expressed of the effort's success in getting all the Cherokee fullbloods to enroll.

Hood's Pills. Do not grip nor irritate the alimentary canal. They are gentle and act promptly, cleanse effectively and give comfort.

WHAT THE STOCKMEN DESIRE

Senator Warren Outlines Plan of Business for Congress.

DEFEAT OF GROUT BILL COMES FIRST. Opening Up of Public Domain, Antitrust Administration Laws and Retaliation Against European Countries in the List.

CHICAGO, Dec. 5.—When President Springer had called the convention of the National Live Stock association to order today he said the program for the day was one of exceptional interest to cattlemen. The program called for papers from J. H. Senner of New York, Prof. Andrew Soule of the Tennessee Agricultural college, Hon. F. E. Warren of Wyoming, A. F. Doremus, state engineer of Utah, and Colonel G. W. Simpson of Texas.

Mr. Soule's paper, dealing with the cattle business in the middle south, was the first one heard by the convention. Senator Warren's address was presented by the secretary and ordered printed in the record. Senator Warren was not present. The secretary then read the address, which contained the following noteworthy recommendations:

What Stockmen Want. 1. Defeat of the Grouse oleomargarine bill. 2. Legislation to prevent deceit and fraud in marketing manufactured products. 3. Legislation to provide for the opening of public domain where practicable for live stock grazing. 4. Legislation providing for taking an annual live stock census. 5. Amendments to land laws to permit stock exchange lands with a general government, so that the stockman's land could be sold, especially with the so-called "water rights" attached to the lands secured alternate government securities. 6. Amendment to the law to enable the Interstate Commerce commission to enforce its decisions. 7. Enactment of pure food laws, compelling all food products to be sold for exactly what they are. 8. Legislation permitting extension of transit limit for transportation of live stock in cars. 9. Legislation to increase duties on meat products imported from Germany whenever the German empire makes a law imposing prohibitive duties on American meat products. 10. Legislation providing for leasing the grazing lands of the United States to users. 11. Retention of government inspection of live stock and the further free distribution of blackhead vaccine until the full period of experimental work has passed.

Hear More of Five-Minute Speeches. Dr. Senner was not present when his name was called and Chairman Springer said he would use Dr. Senner's time to hear more of the five-minute speeches that were crowded out of the program Tuesday.

Accordingly Paul McCormick of Montana, L. O. Pullen of New Mexico and W. E. Bolton of Oklahoma spoke of conditions in their respective states and territories. M. P. Buell of the Chicago Live Stock exchange then arose to remind the delegates that a big vaudeville entertainment for visiting cattlemen had been arranged to take place at the Auditorium tonight.

C. J. Mills of Oregon and W. B. Powell of Pennsylvania followed in brief speeches, eulogizing their respective states. Henry Wade, registrar of live stock of Ontario, Canada, read an interesting paper on the live stock business of Canada. The recommendation of the executive committee that resolutions condemning the Grouse anti-oleomargarine bill give rise to a lengthy and spirited debate among delegates present today at the session of the live stock convention, Leonard Pearson of Pennsylvania, speaking for the dairy interests, who uphold the Grouse bill, led the debate with the plea that with oleomargarine selling under its own colors butters could not hold its own. "Cattlemen," said he, "insist that coloring of oleomargarine should be allowed, yet you insist that the wool interests should be protected against shoddy masquerading as wool."

Cowan Discusses Packers' Rights. Ex-Governor Packard of Iowa moved that the whole subject be deferred, when Judge Cowan arose and said that packers had as much right to color oleomargarine as dairymen to color butter. The discussion was participated in by members of the Kansas, California, Missouri, Michigan and Iowa delegations. It was the first general debate of the convention. Judge Cowan brought the speaking to an end by moving a previous question. The resolution against the Grouse bill was adopted but ever a good sized minority.

Colonel Simpson, following the reading of his regular paper, made a brief plea for a ship subsidy. A resolution to admit Oklahoma to be urged upon congress to provide for tagging cloth goods to show its exact composition and to provide for a classification assessment of cattle were approved by the convention. The committee was divided over framing a bill providing for the exchange of public lands as mentioned in Senator Warren's report and a minority report referring the matter to a committee of five was adopted.

The executive committee for 1902 were then appointed. Among them are: Arizona, E. S. Gossett; California, H. A. Jastrow; Colorado, G. W. Valentine; Idaho, M. B. Gwin; Illinois, G. W. Baker; Kentucky, General John B. Castleman; Missouri, N. K. Walden; Montana, Paul McCormick; Nebraska, R. M. Allen; Nevada, G. E. Erner; New Mexico, Lou Leman; New York, O. H. Davison; South Dakota, F. M. Stewart; Oregon, J. G. Edwards; Tennessee, Overton Lee; Texas, R. J. Kieberger; Utah, J. M. Smith; Wyoming, B. B. Brooks.

At 1:15 the convention adjourned until tomorrow.

CONSULS VISIT STOCK SHOW. Representatives of Foreign Nations Enjoy Managers' Hospitality.

CHICAGO, Dec. 5.—Ambassadors and other representatives of foreign nations are enjoying the hospitality of General Manager Skinner at the International Live Stock exposition today. Count Quadri, secretary of the German legation at Washington; Count Komatsu of the Japanese embassy; and Senator Alberto Strates, representing the Argentine Republic, together with many resident consuls are in the party. Much interest is centered about the pens containing carload lots of fat cattle. Armour & Co. bought the first steer at 25 cents a pound, and still higher prices were expected. In the horse department the Belgian consuls are in the party. The Spanish animals, declared by their breeders to be the original type from which all other breeds are descended, captured the best prizes at the late Paris show. The exhibits here include fifty animals. The animals here for color are in the party. Much interest is centered about the pens containing carload lots of fat cattle. Armour & Co. bought the first steer at 25 cents a pound, and still higher prices were expected. In the horse department the Belgian consuls are in the party.
